

## Pottery creations and International Womens Day at Princess Christian Care Home

### Clay and paints

Our residents at Princess Christian Care Home have had a great time this week creating some amazing pottery.

They made **clay shapes**, including a car, mask, animals, fish and hearts, and after a couple days of drying they **painted them in bright colours**.

Pottery is a great way to **get hands moving** and the texture of the clay provides a wonderful sensory activity – so calming and relaxing.

### Celebrating our female staff

On Tuesday 8 March we celebrated **International Women's Day** here at **Princess Christian** in our Reception.

Our Manager **Mario** kindly bought all our female staff a **beautiful rose and chocolates**; his way of showing his appreciation for all that we do.

*Thank you Mario for such a lovely gesture!*
