

Princess Christian Care Home residents plant seeds for the summer

Last week Our Recreation and Well-Being Team started to prepare our gardens ready for summer here at Princess Christian Care Home.

Firstly we **planted lots of seeds** with our residents in our Units, including **peppers** and **cucumbers**.

This week we will be **arranging all our pots with plants** – from **pansies** to **petunias**!

We hope to have an array of colours in our gardens and courtyards for all to enjoy,

Roll on those long summer days!
