

Sushi making at Princess Christian Care Home Cooking Club

On Friday 11 August we were excited to make sushi at our Cooking Club here at Princess Christian Care Home.

*Our residents enjoyed discovering how sushi is made, with the different elements being combined with tools to help. Our sushi consisted of **sushi rice, cucumber, avocado, smoked salmon, soy sauce** and **dried seaweed**.*

Jordan, Luci and Carol from our Activities Team were on hand to help out and everyone enjoyed creating their sushi masterpieces and eating them too!

A delicious session – well done everyone!
